

**Get your
CSTL - CERTIFICATE IN
SHIPPING, TRANSPORTATION
& LOGISTICS
from BRASI USA**

FAST TRACK YOUR CAREER

A working knowledge of logistics function is imperative for anyone engaged in the supply chain and operations management processes. The CSTL curriculum focuses on the core processes, transactions and principles of shipping, transportation and logistics, including the advanced features such as 4PL, Cold Chain and HACCP.

CSTL training helps develop excellence in customer service and distribution.
